11<sup>th</sup> September 2007

Dear Michael

I would like to thank you and all your team for the incredible effort you are putting into fundraising on behalf of World Vision Ireland. I enclose a receipt for the cheque presented to Ann McGuirk, our IT/Finance Manager, on Friday last for your records.

Ann was absolutely amazed at the number of activities organised and the participation of so many committed people. We salute your hard work, energy and motivation to help the people of the developing world.

With regard to the Ndala water project in Tanzania, our Programmes team have set the wheels in motion with our Ndala Area Development Programme colleagues to establish the next steps. As you know, we intend to create 3 shallow wells each in the villages of Wita and Kampala and a bore hole in Mbagwa – we will start with the village that has the greater need and construct the 3 shallow wells simultaneously. Our ADP colleagues are in discussions with community representatives to establish a time frame for activities and we will revert to you once the plans are confirmed.

Ndala is in a remote, impoverished area with very limited infrastructure so our colleagues and the community face very real challenges every day in achieving their development goals. Your support will make a very real difference and give them great encouragement. We look forward to keeping you updated on the project along with photographs direct from Ndala.

Once again, thank you very much for your efforts on behalf of the poorest of the poor.

Kind regards

Yours sincerely

Helen Keogh
